Coding standard.

Google has coding standards for Java: https://google.github.io/styleguide/javaguide.html

1. Line length – not more than 80 characters.

2. No line break before the opening brace.

3. Line break after the opening brace.

4. Line break before the closing brace.

5. Class names are written in UpperCamelCase.

6. Method names are written in lowerCamelCase.

7. Use 'final' modifiers when possible.
